

Commissioners:

Every business day, work at Ecologistics Limited LLC is interrupted by obnoxious sales calls. Please do not become an enabler for more of these capacity reducing, economically inefficient encumbrances on business. Including lendering (banks) institutions in the exemptions to the "do not call" regulations would be counterproductive. When I want financial services, I speak to my trusted commercial lending agent in person.

I would suggest spending your energies on enforcement of the "do not call".
Thank you.
